

SMP TILTROTATOR INTEGRATED GRIP MODULE

The SMP Grip Module ensures easy handling when working with posts, poles, timber, paving, or pipe and drain installations. The compact grip module takes up very little space under the tiltrotator and can be easily removed and reattached when needed without affecting the use or connection of the attachment. The SMP Grip Module has been developed for high durability, strength and low weight. Thanks to the integrated load holding valves and the gripping synchronization, an even and secure grab function for safe lifting and full control is always ensured.

TECHNICAL SPECIFICATION GRIP MODULE

Grip module	Grab sync	Claw opening (mm)	Load (kg)	Approx weight (kg)
GM S40	x	450	Max 600	40
GM S45 / 50	x	600	Max 700	65
GM S60	x	800	Max 1000	130
GM S70	x	800	Max 1000	130
GM S1 / S2	x	800	Max 1000	130
GM SMP1 / SMP2	x	800	Max 1000	130

Weights can vary depending on design of product
